

CAPSOL MINI LED Text Display Specifications

CAPSOL's MINI LED Text Displays are designed to provide visible notification with lettering and function to meet most any application. UL Listed to UL1638A. Displays Date and Time when not active.

Each display is individually supervised, much more reliable than just wiring supervision. Up to 1,000 displays can be connected to one controller. Explosion Proof Class 1 Div 1 option available.

1.2" High Superbright LED Letters meet NFPA 72 Viewing Requirements in an emergency.

CC-LEDM-01B

Visual Notification of emergencies, overcoming ambient noise or hearing restrictions.

- **Weather Emergencies**
- **Chemical Spill**
- **Workplace Violence**
- **Other Notification**

Playing a message on an LED Display does little good if people are not looking in that direction.

- **135 CD Strobe Light to get attention.**
- **86 dB Sounder for Audible Notification**

When not in use, the displays show current time and date, synchronized to GMT.

- **All Time and Date is Synced over the Network**
- **Eliminates Setting Time Individually**
- **Time Server available with Battery Back Up**

No More Missed Messages.

No More Frustrating Time Issues.

Mechanical and Environmental
